

SOLARINO

Radio controlled,

Eco friendly,

Electric.

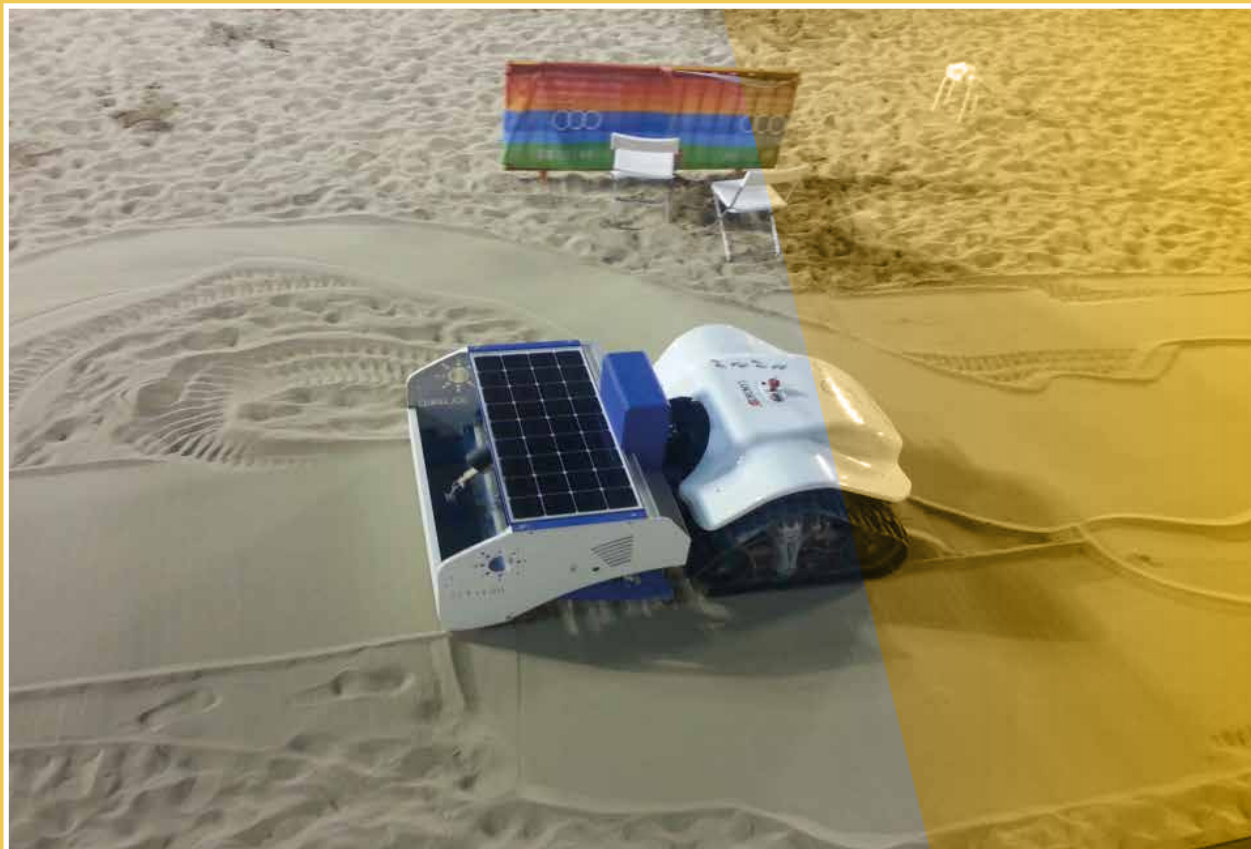

SOLARINO

**RELAX IS A MUST!
NOISE AND SMOKE? NO, THANKS!**

Solarino is able to clean up to 2.500 m²/h of seaside without the need of a specialized or qualified operator.

**AMAZING
PERFORMANCES**

Completely automated. All the garbage unloading operations and the working depth can be remotely controlled by a radio transmitter.

**SOLARINO IS ABLE TO FACE
ANY KIND OF SLOPE**

Thanks to his high-quality tracks and his differential system, Solarino is able to overcome any obstacle.

**NO LIMITS
ON ANY BEACH!**

Solarino is designed for any kind of beach sand and provides different sand sifters.

Thanks to his turn on the spot feature, he is able to move everywhere, also, in narrow areas and places.

NO PROBLEM
ITH SEAWEED AND SEA GRASS

It's possible to adjust the working-depth of the steel rake for a better cleaning operation.

EASY CONTROL THE POWER!

Tracked base provided with back hook able to lift equipment up to 350 kg, without using any loading weight.

Solarino is a perfect solution for carry up boats, trailers with umbrellas and sunbeds.

**IMAGINE.....
YOU CAN!**

Your advertising is now everywhere with Solarino. The robot is provided with an integrated system for LED for playing videos, movie, football match and news on the beach.

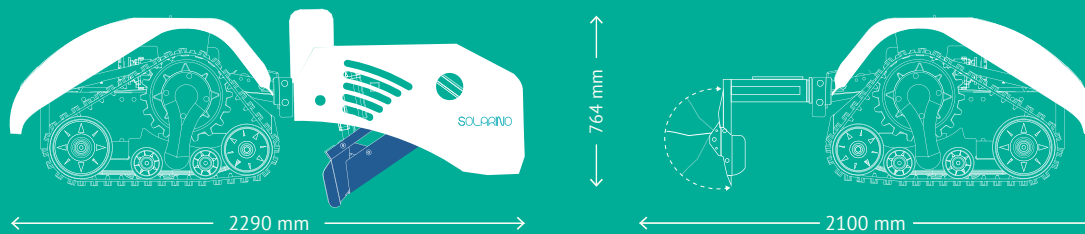

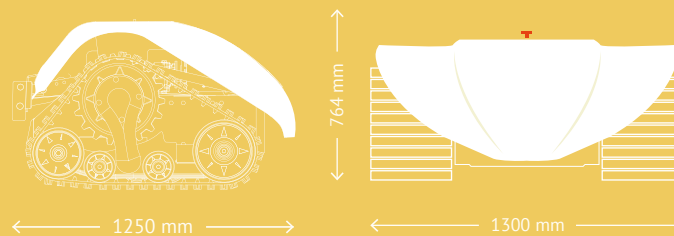

MAIN APPLICATION FIELDS ARE:

- Professional mobile applications
- Travelling advertising networks
- Ledwall Temporary applications

**PLAY YOUR MUSIC
EVERYWHERE!**

Solarino joins you in your beach party with powerful outdoor speakers powered by GEL batteries.

RADIO CONTROLLED

The remote controller allows to drive it within a range of 150 m.

It's easy to control thanks to its small size and to the presence of the electrical differential drive.

SAFE

Equipped with emergency button to immediately stop all operations and no collision sonar sensors (optional).

In case of radio signal loss XBOT immediately stops all its operations.

Access key is needed to power on Solarino and avoid unauthorized usage.

100% ELECTRIC

No emission of exhaust gases or harmful liquids.

NO MAINTENANCE

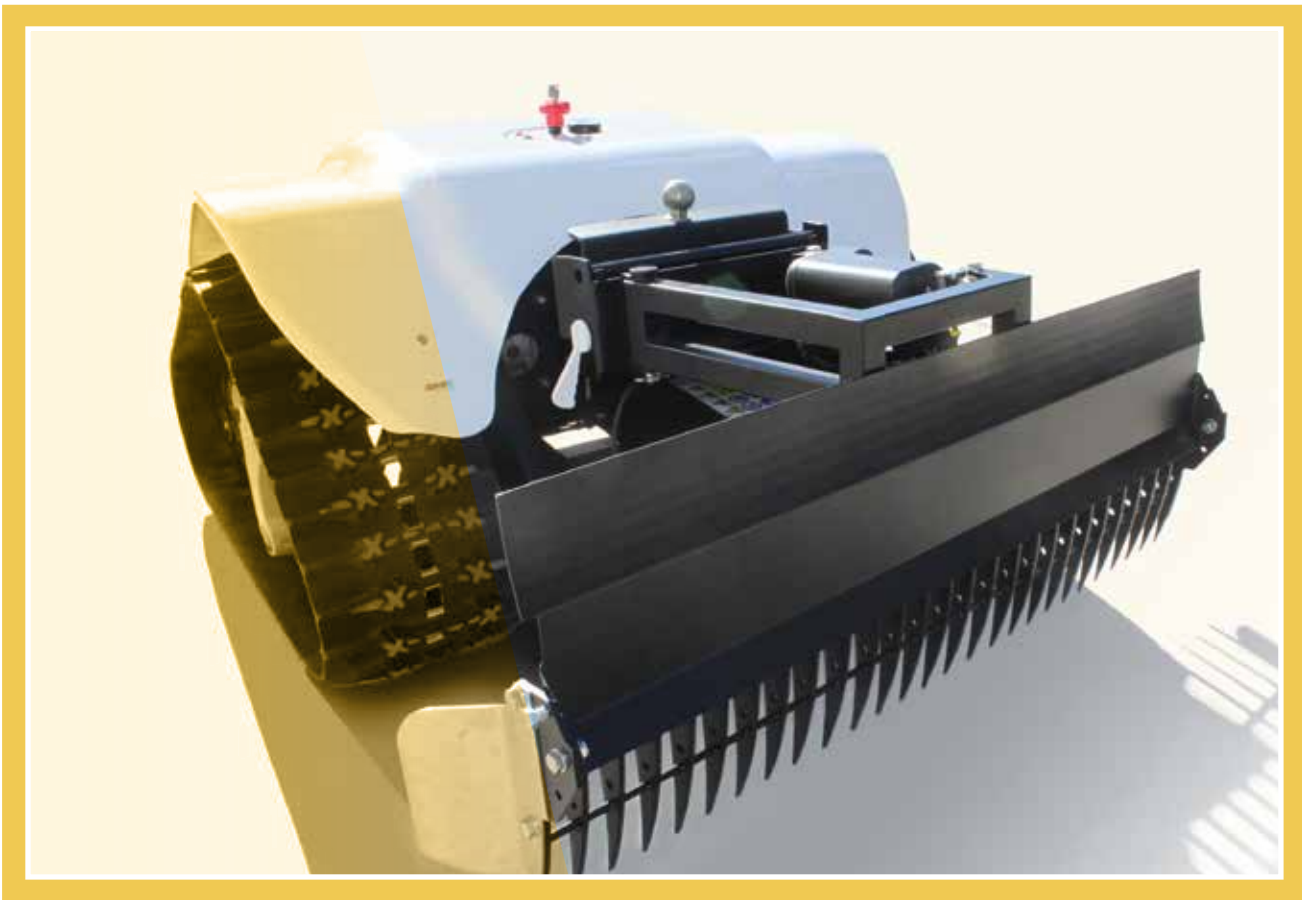

The device doesn't require special maintenance and guarantees considerable money saving

compared to the assistance required by traditional tractors.

CUSTOMER CARESTEP BY STEP

Our customer care is at your service for suggesting the best solution to your problems.
